- Sewing Kit
- Whistle
- Nylon Cord

Code: CK014

Survival Fishing Kit:

Small, lightweight and compact.
Instructions included.

Approx. Contents

- Line 36 Metres (118 feet)
- Winder
- Swivels
- Hooks
- Weights

MM213

Map Reading Compass:

A base plate compass, containing a magnifying glass, ruler and scales for 1:25000 and 1 mile to 1 inch.

The liquid filled compass rotates within the base.

- Stencil holes for adding map symbols.
- Size: 14 x 6 cm (5.5 x 2.5")
- Weight @ 53g (2 oz)

Code: CK602

Mini Compass II:

An extremely compact and accurate, button compass. Features a rotating bezel, metric and imperial scales and a clear acrylic base plate.

- Nylon lanyard
- Oil filled and cushion mounted
- Luminous dial
- Weight: 8g (0.28oz)
- Size: 3 x 5 cm (1.25 X 2 inch)

Code: CK315

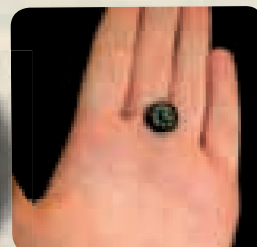

Explorer Button Compass:

An exceptionally robust, oil filled pressurised compass which features in most of our survival kits.

- Ideal as a reserve compass
- Compact at 13mm (0.6") diameter approximately
- Weight: 4g (0.14oz)

Code: CK311

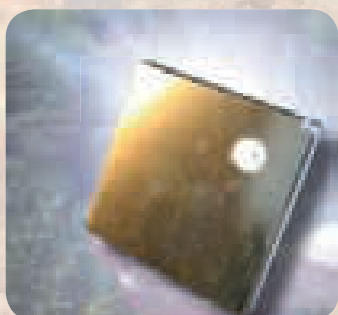

Mayday Signalling Mirrors:

These innovative mirrors are lightweight, and robust.

Highly reflective giving it a range of approx 10 miles for the compact, and longer for the advanced. Designed for one handed operation.

- Accurate and effective
- Robust
- Useful as a personal travel mirror
- Instructions printed on reverse side
- Floats
- **Quick and easy to use**
- Lanyard hole

Item	Size (cm)	Size (inch)	Code
Compact	5 x 5	2 x 2	CK314
Advanced	10 x 10	4 x 4	CK324 (SOLAS approved)

Mountain Rescue Balloon:

A ground to air signal balloon.

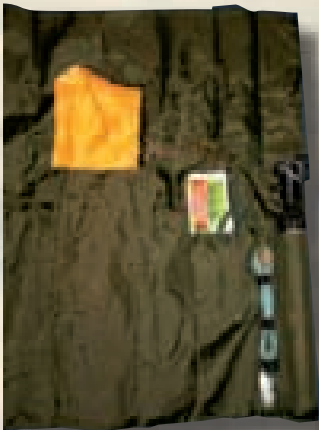

British Quality

- The balloon will float high above any tall forest.
- 75 metre (250 ft) strong tether
- Can be operated by one person within minutes.
- Uses inert helium gas to inflate 136 litre Radar Reflective balloon.
- Gives an **excellent visual aid** which can be seen by any pilot above the canopy.
- Two chemical light disks (supplied) can be attached to both sides of the balloon giving an excellent **signal at night**, especially if the pilot is wearing Night Vision goggles.
- Can be seen over **10 miles away and will stay aloft for many days.**
- Can be lowered and raised as required.
- The balloon has an **excellent lifting capacity** and can take up approximately 80 grams i.e. a GPS or radio antenna etc. above the canopy.
- Also very effective in other distress environments, e.g. maritime, on the mountain etc.

Packed size: 50 x 9 cm (19.7 x 3.5 inch)
 Balloon open size: 119 x 66 cm diameter (46.7 x 25.9 inch diameter)
 Weight: 1.8 kilos (3.97 lbs)

Code: CK409

Howler Whistle:

An incredibly loud whistle. Compact with no moving parts. This British made whistle is used by mariners and sports officials.

British Quality

- Lanyard attachment
- SOLAS approved for marine safety
- Size: 2 x 5 cm (0.75 x 2 inch)

Code: CK316

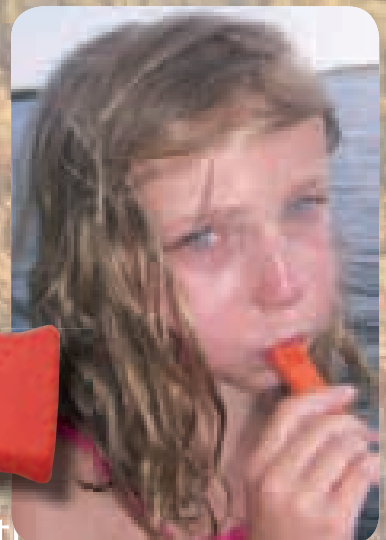

Distress Whistle:

Bright orange emergency distress whistle. Produces a high decibel noise from low air input.

- Slide clip
- SOLAS approved

Code: CK312

**High Power Rapid Zooming Flashlight :**

The unique design of this flashlight makes it ideal for use in outdoor sports, military activities, fire fighting, night patrol and searches. The light beam goes deep through dense smoke, dense fog and dark environments.

Features:

- Latest LED Technology
- High Brightness
- Long Life Span - 100,000 hours; saving you the annoyance of replacing light bulbs frequently
- Low power consumption - 3 x AAA batteries
- Outstanding Optical Lense - Single hand can adjust the focus within 0.3 seconds
- Aerospace-grade Alluminium body
- Hard coating treatment for scratch resistance

Code: CE070**Micro Torches II :**

This small key-ring size LED has a continuous light for 10 hours if required, or signalling ability to over a mile. It comes complete with a battery, which can be replaced when necessary.

- Water resistant and robust
- Weight: 5.5 gram (0.25 oz)
- Size: 4 x 2.5 x 0.6 cm (1.5" x 1" x 0.25")

Code: CE057 Red CE014 White
CE016 Blue

**Fflam Torch**

A strong waterproof rubberised coating protects this torch from all the elements. SOLAS approved for use in a maritime environment. Morse code button for signalling.

- Shielded base switch to prevent accidental activation
- Compact at 15.5 x 4.5 cm (6" x 2") diameter
- Weight: 105 g (3.5 oz)
- Takes 2 x C cell batteries (not supplied)
- Complete with a spare bulb

Code: CE576

Light Sticks:

- Size: 15 x 1.5cm (6" x 0.5")
- Weight: 20g (0.75oz)
- Excellent for map reading and in emergencies

Code:

Water Throwing Quoit:

- Ideal for rescuing people from rivers or floods.
Approved for use in liferafts and lifeboats
- Floating ring and line
 - 30 metre (100 ft) length
 - Diameter 170 mm (6.7 inches)

Code: MF205B

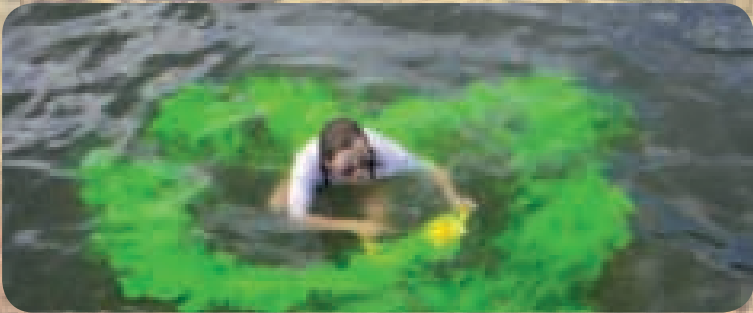

Sea/ Snow Marker Dye:

The PVC pouch contains approximately 104 gram of yellow/green fluoresceine dye, which will spread rapidly when dissolved in water, or over snow.

Can be seen for a mile or more, and lasts for 30-40 minutes depending on water conditions, and longer in snow. Contains non toxic chemicals known to dissipate in water.

- Pouch size: 127 x 156 x 35 mm (5 x 6.1 x 1.4 inch)

Code: MF517

Nemesis Watch

Key Features

- Turning top ring
- 24 hour countdown timer
- 3 time zones
- Fast wrap strap
- Night mode feature
- All day Indiglo display on digital
- Resin case
- 24 hour chronograph with lap & split option
- Indiglo night light
- Alarm
- 100m Water resistant

Code: CD028

Monocular

If your outing takes you around the water or into wet weather, you will want this waterproof monocular for the trip. Multi-coated optics paired with BaK-4 prism glass to delivers bright images.

- A fantastic 8x magnification, can be zoomed in
- Rubber covered for damage resistance
- Very light and compact fits easily into a pocket
- Removes the problem of weight & bulk of binoculars.

Code: CD021

Kestrel 1000 Hand-Held Wind Meter

The Kestrel 1000 is a small electronic rotating vane type anemometer (wind meter), easily carried in a pocket.

It uses high precision jewel bearings and a light weight impeller to provide accurate air flow measurements even at low speeds.

The Kestrel 1000 wind meter is made from high impact injection moulded plastic and corrosion resistant materials with the electronics fully sealed. It will float if accidentally dropped into water. There is a hard cover for protection when not in use and a lanyard is provided for added security.

- Small, robust design
- Data hold function
- Large easy to read display
- Waterproof and floats
- High precision jewel mounted impeller
- Replaceable impeller
- Long life lithium battery
- Low cost
- Includes protective cover, lanyard and battery
- Choice of measurement units

Code: CD016

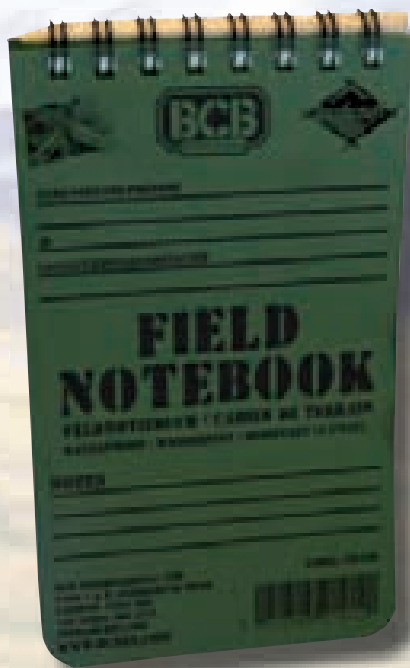

Field Notebook

Tough durable notebook perfect for use in the field. Comes with a pencil fitted into the spiral binding.

- Waterproof Paper
- Useful information printed inside such as:
 - Conversion charts
 - Name and notes on front
 - Ruler

Code: CD455

Waterproof Notebook (with plastic cover):

Water resistant and tear resistant notepad in a durable, green vinyl cover.

- 50 sides approx.
- Pencil included

Code: CD445
CD447 (refill only)

Mini Work Tool:

This credit card size stainless steel multi-tool is packed with features.

- Various size wrenches
- Bottle/ can opener
- Flat edge screw driver
- Ruler and lanyard hole
- Bearing plate for a button compass
- Size: 8.5 x 5.8 cm (3.3 x 2.3 inch)
- Weight: 35 gram (1.3 oz)
- Knife
- Wire Stripper
- Wood saw blade

Code: CMO24

3 in 1 Karabiner, compass and thermometer

- Metal case
- Zinc alloy
- Liquid filled with luminous dial for easily reading at night

Code: CK310

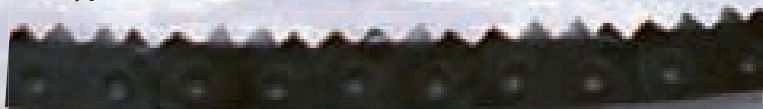

Chain Saw

A pocket sized, heavy-duty survival saws made from riveted sections of band-saw style blade. It will cut anything from a thin branch to a large trunk, with longevity comparatively easily.

- Bi-directional cutting
- Tapered teeth prevent blade sticking whilst cutting
- Can be thrown over high branches for cutting above head height
- Useful for survival, wood clearing, travelling and gardening
- Two Handle Styles; plastic grips on the unbelievable saw or lanyard loops on the pocket chain saw
- Pocket Chain saw fits into a small pouch (supplied).
- Fantastic performance for it's size.

Two types available

"Both examples of the product performed very well. They were used to saw branches up to 9" to 10" (21.6 to 24 cm) in diameter"

Pocket chain saw used by
UK Forestry Commission

CM025 Unbelievable saw Length: 53.4cm (21 inch)

CM026 Pocket chain saw Length: 50.8cm (20 inch)

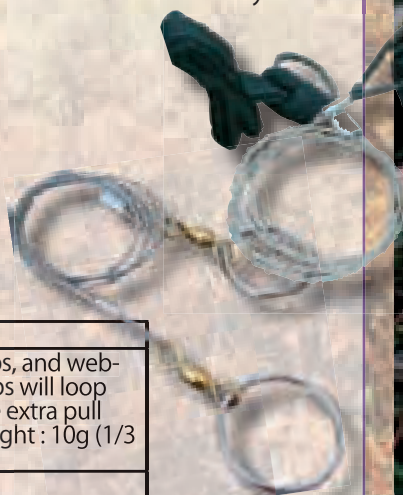

Commando Wire Saw

Our popular patented wire saw just got better. The tightly woven (8 wire) stainless steel saw now offers increased life span, and reduced weight. With the addition of wrist loops they can now be used more comfortably and for longer in more demanding conditions.

- The original and still the best wire saw
- Can be used for escape and evasion.
- Will cut wood, plastic and bone.
- Can still be made into a bow saw
- Two handle styles - Metal Rings or Wrist Loops

Two types available

Original	Lightweight
With swivels and two different sized split rings. Weight 20g (3/4 oz.) Nato: 5110-99-565-2549	Plastic coated end loops, and webbing straps. These straps will loop over your wrists to give extra pull and great comfort. Weight : 10g (1/3 oz.)
Code: CM020	Code: CM020A

Combination Padlock:

Heavy duty, brass combination padlocks. This easy to set combination lock gives you the option of choosing a code personal to you.

Key Padlock:

Heavy duty brass padlock
3 Keys Supplied

Type	Code	Bar Diameter	Weight
Key	CJ557	40mm	125gram
Combination	CJ560	25mm	64gram
Combination	CJ559	40mm	155gram

24-in-1 multi tool:

This super tool is of a **strong, robust, stainless steel** construction. Folding tools lock into position. The webbing pouch contains 12 screw driver and allen bits attachment heads which fit neatly into the chuck head on the tool.

Functions include:

- Needle-nose pliers, wire cutters, scissors, knife blade, marlin spike, wood/bone saw, can/ bottle opener, ruler, lanyard attachment.
- Size: Folds to 11 cm (4 inches)
- Weight: 310 g (11 oz)

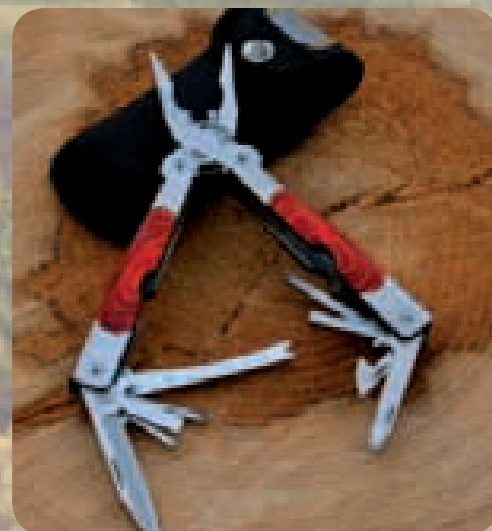

Code: CM037

Hunters tool:

Folding pliers with smooth comfortable handles of stainless steel construction laminated in wood.

- Tools include needle-nose pliers, wire cutters, can opener, bottle opener, small knife, large knife, crimper, small screw driver, 2 large size screw drivers, cross head screw driver and allen key heads in tool set.
- Length: open 18 cm (7 inch) closed 11 cm (4.5 inch)
- Weight: 372 g (13 oz)

Code: CM057

Hunter's tool micro:

A micro version of the Hunter's Tool. Excellent for survival kits and as a pocket companion.

- Easy to fold open.
- Tools include: needle-nose pliers, wire cutters, can opener, bottle opener, knife, crimper, small size screwdriver, 2 large screw drivers, cross head screw driver, files, serrated saw/ knife.
- Length: open 11 cm (4 inch) closed 7 cm (2.5 inch)
- Weight: 106 g (3.6 oz)

Code: CM056

**Paracord:**

Strong and tough
Olive paracord useful for all outdoor activities and uses

- Breaking strain of approx. 250 kilos (550lbs)
- Protective wear resistant sheath
- Braided inner cord can be used as fishing line or for sewing
- Length: 15m (50 ft)

Code: CM030

**Elasticated bungees:**

- Multi purpose
- Robust
- Strong
- Rubber coated metal hooks
- 1m (3ft) length

Code: CM031

**Tallow Candle:**

Made from Oleo Steari - a natural vegetable fat.
A continuous burn time of 10 hours
Ideal for fire lighting
Size: 12 x 3.5 cm
(4.7 x 1.4 inches)

Code: CN326

**Steel Pegs (10):**

Steel pegs for use with tents and bashas

- 18 cm (7 inches)

Code: CT017

Karabiners:

Hand accessory Karabiners, ideal for keys, mugs, torches.

- Use to attach almost any item to your webbing or rucksack
- Quick clip action
- No hook to snag when unclipping
- 2 Karabiners per pack
- Available in two sizes
- High tensile strength
- Packed in Bushcraft blister pack

	Circumference	Length
Small	6 mm	60 mm
Large	8 mm	75 mm

Code: CL115 (Small)
CD114 (Large)

**Folding Scissors:**

Folds into itself for safety and compactness.

Size:
5 cm (2 inches) Folded
8 cm (3.2 inches) Open

Code: CM209

Fireball Flint and Striker:

The ultimate flint and striker for the outdoor or survival enthusiast.

Designed for continual use, reliable sparks burning hotter and longer than others on the market.

It has advantages of a new hardened "V" shaped blade for increased spark.

- Size: 8cm (3 inch)
- Weight 40g (2oz)

Code: CN330A

Fireball Flint and Striker with Compass:

As above but with a small compass in the handle

- Size: 8cm (3 inch)
- Weight: 45g (2.2 oz)

Code: CN330B

Striker Fire Flint:

The flint is set in a magnesium block which can be shaved for tinder. Shave off the magnesium which easily lights with sparks from the flint. Can be used for starting thousands of fires. Burns intensely to start most tinders

- Size: 7.6 cm (3 inch)
- Weight: 35 g (1 oz)

Code: CN331

Ranger Fire Flint:

The most compact flint and striker designed to fit into the smallest survival kit. Scraping the flint produces a shower of sparks, suitable for lighting tinder. Long lasting. The striker can be used as a small knife & saw.

- Size: 7.6 cm (3 inch)
- Weight: 15 gram (0.5 oz)

Code: CN330

Matchless Fire Set:

The tin contains fuel, compressed cotton wool and a ranger fire-lighting flint. This kit has the advantage of lasting much longer than a box of matches and its components are sealed.

- Size: 8.5 X 6 X 2.5 cm
- Weight: 100 Gram (3 oz)

Code: CN335

Survival Matches:

Stronger and more effective than standard matches, these matches have extra long heads and will continue to burn through strong winds and rain.

- Hand dipped and varnished
- 1 waterproof container including 25 matches

Code: CN327A 1 X 25 matches
CN325 2 X 25 matches

Tinder Card:

A flammable piece of impregnated material, which when pulled apart shows its fibrous nature producing an excellent complement to a flint and striker. Once ignited it burns slowly like a candle helping it to easily start fires. Only a small amount is required for a survival kit, and it packs smaller than the other alternative tinder, eg, cotton wool balls etc.

- 18 cards
(9.5 x 19 cm)
(3.8 x 7.7 inch)
- Weight: 210 g
(7 oz)

Code: CN332

**Crusader Cooking system :**

An integral folding arm allows the cup to fit securely over a fuel crucible where gel fuel or solid hexamine fuel blocks can be lit.

A small slot provides efficient air intake whilst the walls of the cooker provide shielding against the wind. In transit, the cooker nests neatly and compactly beneath BCB's Crusader Cup and will fit inside the water bottle.

- Boils 500ml (17floz) of water in about 8 minutes
- Integrates with BCB's Crusader Cup and '90 pattern water bottle + mug
- Black PTFE coated finish also available

Includes:

A: Plastic Mug (standard)

B: Water Bottle (standard)

D: Crusader Cup

E: Crusader Cooker

Product Code	Item	Finish	Approx Weight
CN006S	Cooker	Silver	185g
CN006	Cooker	Black PTFE	175g
CN540	Crusader Cup	Silver	270g
CN540B	Crusader Cup	Black PTFE	245g
CN007S	Cup & Cooker	Silver	455g
CN007	Cup & Cooker	Black PTFE	420g
CN010S	4-Piece Set	Silver	500g
CN010	4-Piece Set	Black PTFE	480g

**Crusader Cooking System (in Pouch)**

This set consists of;

A: Plastic Mug (Nato)

B: Water Bottle (Nato)

C: Crusader Cup Lid

D: Crusader Cup

E: Crusader Cooker

F: Crusader Pouch

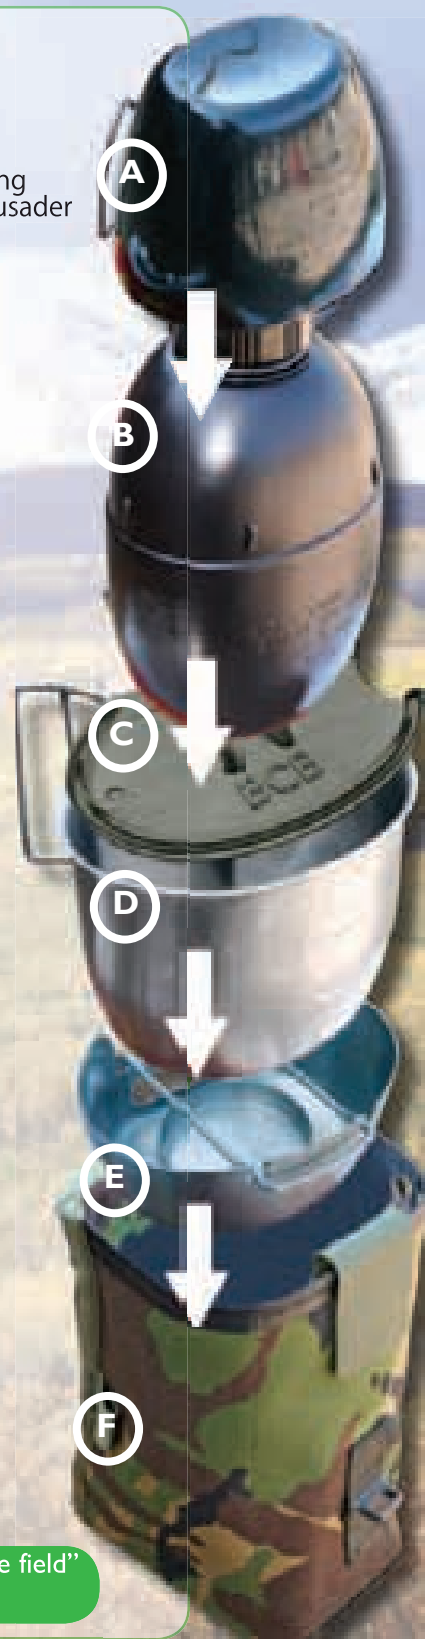

G: 12x Ethanol Fuel Gel

H: Fireball Flint & Striker (see page12)

- Size: 11.5 x 12 cm (4.5 x 4.7 in)
- Weight: 450 gram (15.9 oz)

Code: CN004 Silver CN004B Black

"We were very impressed by both its simplicity of concept and its performance in the field"
- on BCB's cooker and gel fuel *Survival Magazine*

**Crusader Cup Lid:**

A plastic lid for the classic crusader cup. Reduces boil time and helps keep dust/ dirt out of the cup. Converts the cup into an insulated mug. Helps to reduce spillage when walking or sitting in vehicles.

Code: CN009

Water Bottle and Mug:

A black plastic 950 ml (32 oz) capacity bottle and 500 ml (1 pint) capacity mug.

Profiled to easily fit in the belt pouch available.

- Heavy duty material
- Plastic cup with handle
- Screw top closure
- Dry weight: 227 gram (8 oz)

Code: CR244A (Standard)
CR244B (NATO Issue)

Crusader Cup Canteen:

Constructed of high grade stainless steel, the Cup Canteen is designed to fit beneath the NATO water bottle as part of the Crusader Cooking System.

Doubles as a cooking pot.

Available with a black PTFE coating or stainless steel.

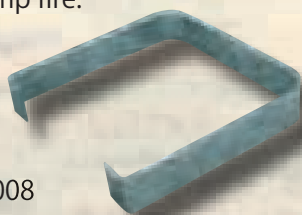

- Volume: 750 ml (1.58 pints)
- Size: 3.7 x 10.2 x 10 cm (5.3 x 4 x 4 in)
- Weight: 290 g (9.6 oz)

Code: CN540 Silver
CN540B Black

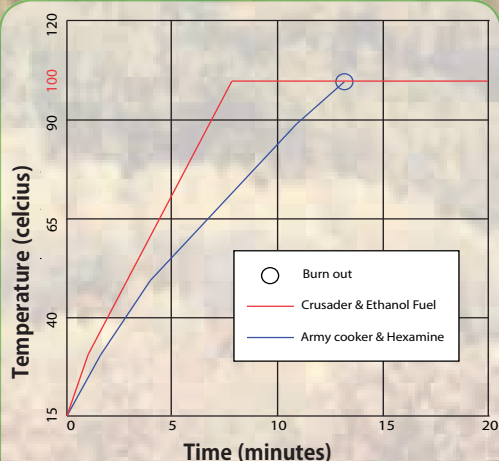

Crusader Cup Holder:

Simple but effective. The Crusader Cup holder allows the boiling of water & cooking of food directly over a camp fire.

Code: CP008

Conditions:

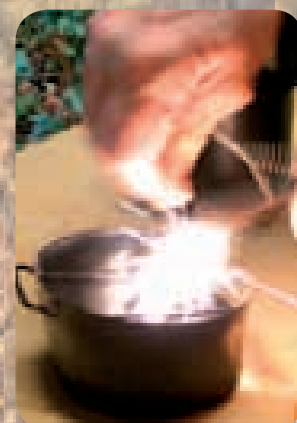

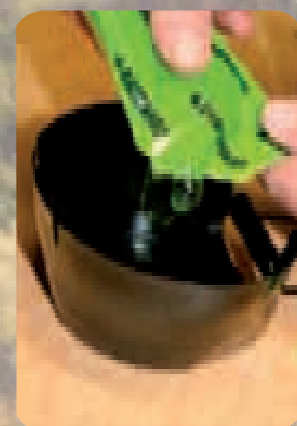

- Wind 5-8 mph
- Temperature °
- Mug with 500 ml water at ° placed on each cooker

Ethanol Eco Gel Fuel:

- Non-toxic and clean. No harmful fumes. It burns clean and can be used in areas of restricted ventilation.
- Generates heat more quickly than previous formulas.
- Faster cooking times.
- Typically heats 500 ml of water in 8.25 minutes in independent tests.
- Burns with a pale blue light, low smoke - burns very clean
- Fuel can be extinguished and re-ignited later.
- Supplied in sachets that are easily packed and easy to use.
- Sachet can also be burned with the fuel; leaving little residue
- The Eco friendly gel is made from renewable agricultural sources rather than fossil fuels.
- Our ethanol fuel is environmentally safe.
- Ethanol fuel is quicker and easy to light and can be easily ignited with a flint and striker fire lighter or match.
- 12 sachets per box.

Code: CN333

Findings:

An independent report (see graph) has proved that the crusader cooker and the ECO fuel gel, cooks over **50% or 4 minutes quicker than other solid (hexamine) fuel & cookers**

**Crusader Mess Tin:**

A compact, 2 part mess tin
The lid that can be used as a frying pan.

When packed, the mess tin arm clips securely over the lid to prevent any rattling when stored in a rucksack.

- Compact and robust
- Stainless steel
- Multi functional
- Size: 17.5 x 13 x 5 cm (6.9 x 5.1 x 2 inch)
- Weight: 360 gram (12.7 oz)

Code: CN008

**Lightweight KFS:**

The traditional knife, fork, spoon set that clip onto rivets on the spoon handle

- Bottle opener on knife
- Weight: 75g (2.7 oz)

Code: CN1446

**Mess Tin:**

These stacking tins are standard pattern aluminium, with foldout handles

- Size: 18 x 13 x 6 cm
- Weight: 480 gram (21 oz)

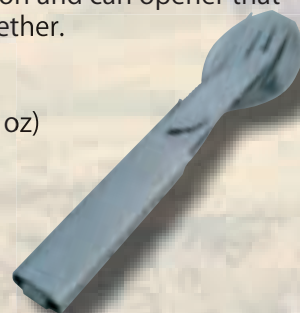

Code: CN246

**KFS Set with can opener:**

A knife, fork, spoon and can opener that slides neatly together.

- Strong
- Stainless steel
- Weight: 87 g (3 oz)

Code: CN224

**Mini Mess Box:**

A super light weight, airtight aluminium tin with locking roller clasps.

It features a rubber seal within the lid, and is useful as a storage tin for personal survival equipment. Can be used to cook food.

- Size: 13 x 9.5 x 3 cm (5 x 3.5 x 1 in)
- Weight: 95 gram (4 oz)

Code: CN550

**P38 Can Opener:**

- Two per pack
- Length 5 cm (2 inch)

Code: CN225

**Folding KFS clip set:**

Incredibly compact knife, fork & spoon set with can opener, bottle opener and lanyard attachment.

- Folded size: 9 cm (3.5 in)
- Weight: 87 gram (3 oz)

Code: CN223

Emergency Ration Pack VI:

A compact hermetically sealed aluminium package, which can be used as a brew pot, containing high energy food, coffee set, fuel, purification tablets, compact survival items and instructions. Long shelf life
Approx.: 900 kcals

- Size: 17.5 x 23 x 5 cm (7 x 9 x 2 inch)
- Weight: 280 gram (10 oz)

Code: CP670

Millennium Energy bar:

Available in 2 natural flavours. Cherry or raspberry. Each packet contains a fortified long life food bar. Energy: 409 Kcal (1720 kj)
Vacuum packed
3 Year shelf life
• Size: 16 x 6 x 1.5 cm (6.3 x 2.4 x 0.6 in)
• Weight: 84g (3 oz)

Code: RF0014 (Cherry)
RF0014R (Raspberry)

Emergency Belt Order Ration (24 hour):

A compact ration pack approx. 630 kcals.
• Condensed survival bar high calorie
• Isotonic gel sachet
• Glucose energy tablets
• Chewy cereal bar
• Water purification tablets
• 3 in 1 coffee drink, sugar and milk.
• 2 x salt sachets
• 2 x vegetable stock cubes
• Long shelf life

Code: CP003

Wet meals ration pack:

Four differing menus. Packed in a neat recyclable cardboard box

- Chocolate drink x 1
- Biscuits x 1
- Tea bags x 2
- Tin of tuna x 1
- Coffee sachets x 2
- Kendal mint cake x 1
- Creamer sachets x 2
- Pack of 10 tissues x 1
- Sugar sachets x 4
- Can opener x 1
- Pepper sachets x 2
- Plastic fork, knife & spoon x 1
- Salt sachets x 6
- Breakfast meal x 1
- Tinned fruit x 1
- Main meal x 1
- Approx. 3000 calories
- Weight: 1.77 kg (3.9 lbs)
- Size: 26 x 17 x 8.5 cm (10.2 x 6.9 x 3.3 inch)

Code: CP4220

Red Cross Ration:

- Main meal x 1
 - Sardines x 1
 - Meal bar x 1
 - Salt sachet x 1
 - Can opener x 1
 - Assorted biscuits x 6
 - Sugar sachet x 2
 - Canned meat x 1
 - Orange drink x 1
 - Creamer sachet x 3
 - Plastic spoon x 1
 - Coffee sachet x 1
- Weight: 1000 gram (35.3 oz)
Dimensions: 12 x 21 x 7 cm (4.7 x 8.2 x 2.8")

Code: UR003

Water Purifying Tablets:

Substantially reduces contamination in filtered water chlorine-based tablets. Neutralise bacteria and helps to protect you against water transmitted ailments.

- 1 x tablet treats 1 litre
- 2 x 50 tablets (foil wrapped)
- NATO approved

Code: CR210

"Dehydrated Water"*

Dramatically improves the bodies natural absorption of water.

- Turns water into hydration.
- Calories into energy. • Helps prevent cramps.
- Compatible with hydration packs.

A clear liquid electrolyte when added to water will not stain, leave any odour or aftertaste. More importantly it will not promote bacterial growth in the hydration pack or bottle. The pack or bottle can be cleaned with plain water in the normal way. One sachet per 3 litres of water and shake well.

** We know this is a misconception, but as a hydration supplement it achieves the same as if you could have "Dehydrated water."

Supplement Facts

Potassium: Muscle function; nerve conduction; water and acid-base balance; supports cardiovascular function; helps prevent muscle cramps.

Magnesium: Nerve condition; muscle function; energy production and flow; supports cardiovascular and respiratory function; helps prevent muscle cramps.

Sodium: Nerve conduction; muscle contraction; water and acid-base balance; thirst response.

Chloride: Water and acid-base balance; oxygen exchange, the most abundant anion outside the cell.

- 6 x 2.46ml sachets

Code: CR041

Chilly*

Personal Water Cooler

- Simple and effective water cooling works in the harshest conditions.
- Clips easily and quickly to most quality in-line hydration systems such as Camelbak®.
- Silent quiet operation.
- **No consumables. No batteries.** No malfunctioning mechanical parts.
- Does not require any external cooling i.e. over night refrigeration.
- **Lightweight at 410 grams** (14.4 oz) dry.

The device will significantly help to **reduce heat stress injuries and dehydration.**

In hot conditions water in a hydration pack can reach temperatures well above the core temperature of the body. Drinking warm water is totally ineffective to cool the body.

The Chilly provides a continuous supply of cool palatable water. It therefore encourages frequent sipping and so improves hydration. It also lowers the core temperature of the body.

Works simply by evaporation alone.

Code: CR161

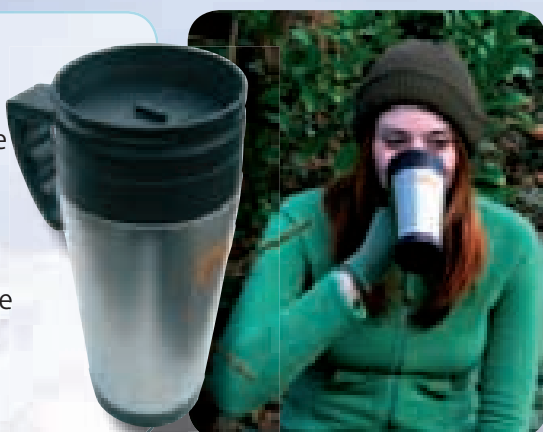

British Quality

Stainless Insulated Mug:

A robust stainless double skinned mug, with lockable drinking spout.

- Screw on lid
- Sealable drinking spout
- Excellent for a beverage while you are on the move
- Capacity: 400ml ($\frac{3}{4}$ pints)

Code: CR045

Vacuum Flask:

A double walled stainless steel flask with 1 litre capacity.

- Impact resistant
- Weight: 700 gram

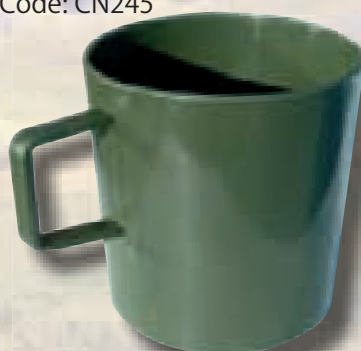

Code: CN555B

Plastic Mug:

Light weight green plastic mug with half Litre capacity.

Code: CN245

Plastic Insulated Mug:

Lightweight double skinned plastic mug. Has excellent thermal insulating properties. The sealable hole in the lid maintains temperature and prevents spillages.

- Capacity: 350 ml (0.66 pint)

Code: CR008

Water Jerry Can (HD Polymer):

A high - density plastic water carrier, with two different pouring holes. The smaller hole doubles as a breather for steady flow of water.

- Size: 45 x 34 x 16 cm (19 x 14 x 6 in)
- Dry weight: 2.2 kg (4.8 lbs)
- Capacity: 20 litre (42.2 pints)

Code: CT019

Collapsible Jerry Water Can:

This handy camping companion, folds up small enough to fit into a glove box and expands to hold 10 litres (21 pints). Strong.

Size	cm	Inches
Compressed	20 x 20 x 6	8 x 8 x 2.5
Expanded	20 x 20 x 25	8 x 8 x 10

- Robust
- Carrying handle
- Integral tap

Code: CT026

Thermal Flask:

- Great insulation for all drinks hot or cold
- Flask comes with screw top
- Very robust for extreme conditions
- 0.4 litres
- Length 19.5 x 6.5 cm (7.7 x 2.6 inch)

Code: CR083B Black
CR083 Silver

Lifesaver First Aid Packs:

Packed in attractive black soft pouches. The contents are held neatly behind clear plastic pockets. Fold open to easily see and therefore access the components fast. First aid kits for a variety of outdoor uses. The basic kit is a large pocket size kit for day trips.

The intermediate kit is for longer journeys and larger groups of people.

The advanced kit, which can be used as the basis for an expedition medical kit, contains a resuscitation device.

BCB have been manufacturing first aid kits for the outdoors for over 50 years. We supplied the medical kits to the first successful S.W. face ascent on Everest led by Chris Bonnington in 1975. All of our kits we manufacture ourselves in the UK. You will therefore find them:

- Highly applicable for the outdoors
- Great value for money
- British (B.P) quality
- Well equipped and comprehensive

Anaconda Splint:

Lightweight malleable splint. Versatile and flexible

- Use to immobilise and support broken or sprained limbs.
- Compact when rolled: 11 x 8 cm (4.5 x 3 in)
- Weight: 140 gram
- Length: 91 CM (36 in) open.

Code: RY273

Heel Heal Blister Kit:

Comfortable, slim & effective patches, for treating/preventing blisters.

Can be cut out & shaped to fit overheels or between toes etc.

- Sterile Blister Patches
- Plaster roll
- Folding Scissors
- Self Adhesive Pressure Pads
- Petroleum Jelly

British Quality

Code: CS47209

Field Medic Pouch:

A large medical pouch that can be attached to a Rucksack in place of a side pouch.

Features a host of pockets/ pouches for medical kit.

- 3 detachable mesh pockets with draw cords.
- 1 x large dump pocket with clear window.
- 1 x mesh document holder
- Quick - access kit panel (30 elastic loops)
- 1000 denier waterproof Cordura®

* **(Contents not included)**

Code: CA024

Mountain Rescue Lightweight Carry Sheet:

A lightweight and compact carry sheet designed for emergency personnel evacuation. Carried via six large, wrap-around hand loops. Alternatively, carry using poles that can be fed through wide support channels (see blue and red arrows).

Features wide carry straps for comfort when handling.

- Compact - fits in a PLCE water pouch
- 6 x wrap around hand loops
- Measurements: 37cm x 29cm (14.62" x 11.4")
- Weight: 525g (18.5oz)

Code: CS019

Traveller First Aid Kit:

A handy pocket sized pouch with belt tunnel loop, containing basic medical kit. Excellent for hikers who want to travel fast and light. A full list of contents is listed in the table. Belt loops.

Code: CS476L

British Quality

Zinc Oxide Plaster Strapping:

- Self adhesive
- 2.5 cm x 5 m (0.8 in x 16.4 feet)

Code: RM237A

Multi Bandage Dressing

Built in velcro closure. Dressing size 19x8cm (7.5 x 3.2 inches)

Vacuum packed to 10 x 80 x 1.5cm

Weight: 80 g (2.85oz)

Bandage length: 90cm unstretched, stretches to 1.8m (6 foot)

Width 7.5cm (3 inches)

• Life saving, for combat emergency cases, can be used by army, police and medics.

• Sterile

• Strong elastic:

• Blood absorption pad:

• Tourniquet:

• Fixation device.

• One hand operation.

Code: CS118

Ice & Go Bandage

• Cooling elastic bandage,

• Cools the injured limb at the same time as it is soaked with 30% alcohol.

• Reduces the temperature of the injured area.

• Can be used in cases of sport injuries (replaces the traditional ice pad), strains, sprains and accidents while in the outdoors

• Brilliant way to reduce swelling and to relieve pain in emergencies immediately.

• Resealable pouch means it can be reused.

• Stretches to 3 metres length

• Cools for hours

• Can be recharged with water

Code: CS117

Rescue Strop

For pulling an injured person out of danger. Just loop it over their shoulders and one or more of you can drag them to safety. Can also be used by two of you to carry someone sitting on it, or as an emergency tow rope.

• Quick to open and release.

• Ideal for canoes

• Long 3.5 m (10.5 ft) length of 3 cm (1.2 inch) wide webbing

• MOLLE attachment pouch.

Pouch size: 15cm x 6cm (6 x 2.4 inch)

Code: PIPS031

Printed Survival Bag:

A highly visible, heavy duty, full sized poly bag printed with survival information covering fire making, navigation and shelter.

- An essential survival item and tool to assist in the prevention of post trauma shock.
- 500 gauge heavy duty poly bag
- High visibility day-glo orange colour
- Weight: 345 gram (12.1 oz)

British Quality

Code: CL044

Foil Hypothermia Blanket:

The lightest and most compact blanket in our range. Truly pocket sized it assists in the retention of up to 90% body heat. Plain silver on both sides.

- Lightweight foil sheet
- Dimensions: 202 x 132 cm (81 x 53 inch) Open
9 x 10 cm (3.5 x 3.9 inch) Closed
- Weight: 60 gram (2 oz)

Code: CL041

Emergency Hypothermia Bag:

Ideal in an **emergency hypothermia bag**, or as an extra emergency cover to go over your sleeping bag.

- Hood and zipper fronted
- Folded Size 20 x 30 cm (7.8 x 11.8 inch)
- Weight 270g (9.5oz)
- One size fits all
- Approved for use in liferafts
- Compact and lightweight
- SOLAS Approved

Code: MF206B

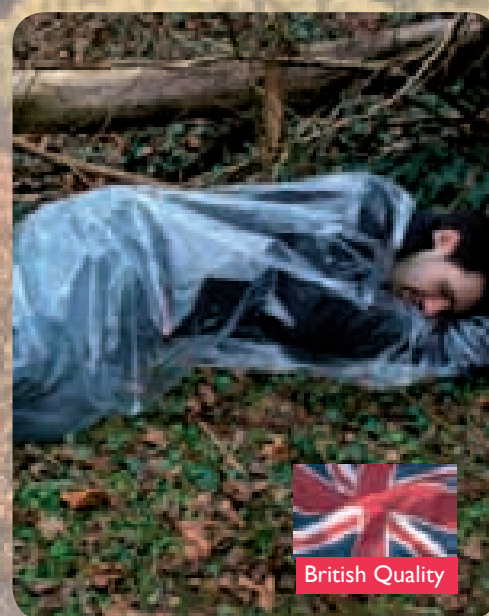

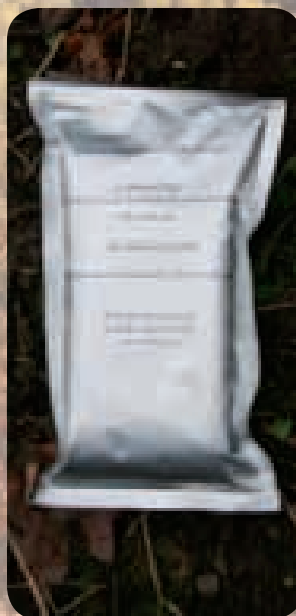

Emergency Sleeping Bag:

A medium gauge, full size, polythene sleeping bag. Compact and lightweight it is a shield against the elements or as a waterproof inner layer for a sleeping bag.

- 300 gauge (medium) polythene
- Vacuum packed dimensions: 10 x 20 x 3 cm (4 x 8 x 1 inch)
- The designs help retain heat and shield against wind & rain.
- Weight: 142 g (5 oz)

Code: CL520

British Quality

**Ultra Light Fibre Towel:**

Fine micro fibre towel, terry woven (looped pile). It is highly absorbent, super soft and made from a lightweight material. 85% Polyester 15% Nylon. Packs small, and has the absorbency of a much larger towel.

- Colour: green
- Absorbs over 5 times its own weight
- Size: 40 x 80 cm (16 x 32 in)

Code: CJ003G

Twist Razor:

Housed within a robust sheath, a simple twist reveals the blade. Just twist the handle to reveal the razor. Comes with 5 twin razor blades. Razor accepts most side inserted type twin blade cartridges.

Weight: 20 gram (1 oz)
Size folded: 8 x 2 cm (3 x 1 in)

Code: CS613

**Aqua Loo Wash Bag:**

A useful fold out pouch with hanging loop, and numerous pockets.

Contents not supplied

Size:

Closed: 19 x 13.5 cm
(13 x 5 x 2")

Open: 46 x 13 cm
(16 x 5")

Lightweight: 120 gram

Code: CS003

She wee®:

Revolutionary funnel providing women with a simple, private and hygienic method of urinating while standing up and without removing any clothes.

- Washable and reusable
- Weight: 15 gram (0.5 oz)
- Length: 16 cm (6.6 inch)

Code: CS008

**Concentrated Travel Soap:**

A highly concentrated body and hair gel, which lathers both in fresh and salt water.

- Environmentally friendly
- 15 ml

Code: CS134

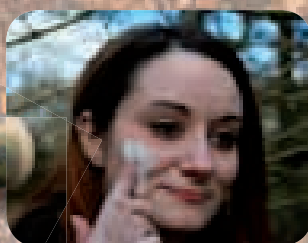

All-weather Skin Protector:

A protective barrier cream, Sun Protection Factor 15, which moisturises and nourishes the skin. Packed in a new handy pump action plastic container. Twist the pump cap to lock, making sure it doesn't discharge in your rucksack or pocket.

It is highly effective against sun, sea, snow & windburn.

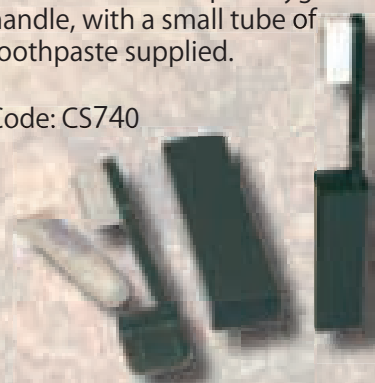

- Lasts up to 8 Hours
- 15 ml

Code: CL120

**Folding Toothbrush:**

Folds into the compact hygienic handle, with a small tube of toothpaste supplied.

Code: CS740

Silvasan Soap:

Silvasan soap incorporates active silver ions as part of its molecular structure. When exposed to water, silver ions are released, which combine with the skin's surface to provide a very effective long lasting anti microbacterial effect. Ideal when your travelling or camping and perhaps unable to wash as often as you would normally.

- Contains vitamin E and glycerine
- Not tested on animals
- Contains no animal derived materials

Code: CS133

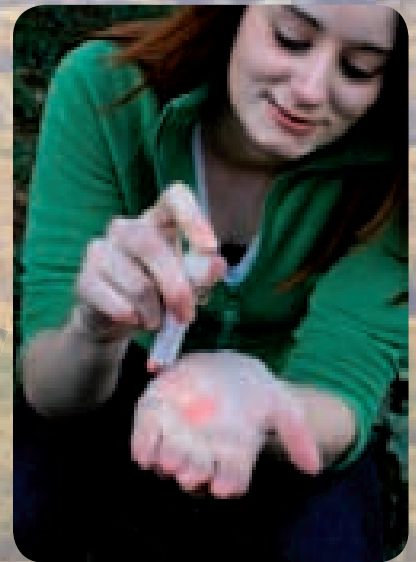

Steridex Hand Cleanser:

This non-toxic gel is the ultimate hygienic companion when outdoors. Packed in a handy pump action container. Effective for the whole family. Doesn't require water, soap or hand dryer.

- Kills 99.99% of germs
- Environmentally friendly
- Twist lock cap
- 15 ml (0.6 oz)
- Doesn't freeze and works well at altitude

Code: CL450

Solar Shower:

Solar heated black vinyl absorbs heat, warming the 20 litre flexible reservoir. This portable light weight shower is easily packed and stored.

- On/off spray setting
- 20 litre (5 gallon) Capacity)

Code: CR006

Sewing Kit:

All items necessary for running repairs to clothing housed with a strong zipped pouch.

Holds 3 lengths of thread, folding scissors, safety pins, needles, buttons and more

Code: CJ135A

35 Litre Daysack:

A versatile and robust daysack with a host of useful features including an integral water resistant cover.

- 2 x side pouches
- 1 x pocket in the hood
- Integral, waterproof and camouflage cover
- Convenient mesh pockets on lumbar pad
- Webbing straps to attach roll mat.
- Name identification panel
- Mesh lumbar pad
- External mesh pocket
- Camelbak® compatible
- Weight: 1200 gram (42 oz)

Code	Colour	Cover
CA019B	black	red
CA019D	desert	camo
CA019G	green	camo

25 Litre Daysack:

A good sized all-rounder. Consists of 2 x side pockets (with zip closures). Adjustable back and shoulder straps and expansion collar.

Camelbak compatible

- Lightweight: 734g (26oz)

Codes:
CA015A (Camo) CA016A (Olive) CA016D (Desert)

Para Bag 65 litre:

A large heavy duty waterproof kit bag.
Compact and lightweight for storage.

- Size: 75 x 35 x 75cm (30 x 14 x 30")
- Weight: 520g (18oz)
- Folds flat so useful as a spare bag
- Waterproof material

Code: CJ427B (Black)
CJ427D (Desert)
CJ427G (Olive)

Cargo Bag - 110 Litre

- Large capacity with **extendable handle** which stows away into a zip pocket.
- Two heavy duty 8cm diameter **wheels**.

Shoulder straps for back mounted carrying with stow away padded pockets. Carry straps and end handles, all reinforced.

Studded base for abrasion resistance, name tag window, internal compression straps and internal boot pouch to keep the footwear separate.

Overall dimensions 76 x 38 x 38cm (29.9 x 14.9 x 14.9")

Extendable handle length up to 112cm height

1680 Denier PVC fabric

Weight: 4.06 Kg
(143oz)

Code: CA014

Daysac Dry Bags:

A set of 4 dry bags suitable for a day sac, side pouches of your larger rucksack or to divide up your kit.

Ideal also for isolating dirty or wet kit from your dry gear. Colours as shown.

Capacity	Approx Size (cm)	Approx Size (inches)
3 Litre	24 x 14	9.4 x 5.5
5 Litre	36 x 16	14 x 6.2
8 Litre	35 x 18	13.7 x 7
13 Litre	42 x 22	16.5 x 8.6

Code: CA964

Rucksack Dry Bag (with compression valve)

Fully submersible dry bags manufactured from hard wearing coated nylon. Features a roll-down closure with quick release buckle.

Excellent as a rucksack liner or as a buoyancy aid during river crossing.

The 60 litre has a clear viewing strip and valve (60L only)

The valve allows you to either inflate the bag if needed for a river crossing, or to expell air so reducaing the overall volume.

Volume	Size (cm)	Size (inches)	Code
60 Litre	79 x 63.5	31 x 25	CL081
90 Litre	79 x 89	31 x 35	CA960

Flat mate:

A versatile waterproof, non-absorbant, fire resistant, fold flat sleeping mat. Manufactured from **high quality closed cell foam**. Finished with a **non-slip** sealed surface for ease of cleaning.

- The Flat Mate **can store inside your ruck sac** and provides a comfortable protective pad for the spine. Strong and robust.

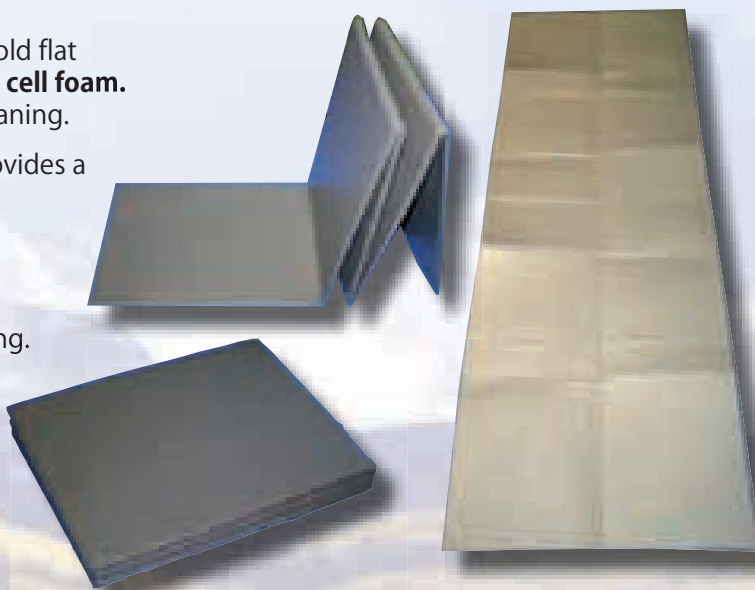

- Flat mate has **fantastic insulating** properties.
- Can be used as a **Sit Mat** when folded.
- Can be used in a number of combinations for sleeping.
- Lightweight

Size fully open 180 cm x 56 cm x 0.5 cm
(71 in x 22 in x 0.19 in)

Size Closed 36.5 cm x 28 cm x 4.5 cm
(14 in x 11 in x 1.6 in)

Weight 370 gram (12.5 oz)

Code: CT650

Fox® Sleeping System

Comfortable, compact and versatile.

A modular system of 3 components that can be combined or used independently. This superbly designed system was developed in conjunction with outdoor experts.

1. Fox® Jungle Mosquito Net:

A rugged, close weave polyester mosquito net. The net is clipped to fabric loops underneath the basha and via elasticated hooks underneath the hammock. This shapes the net, pulling the mesh walls away from the body and prevents the net from sagging and allowing insects to enter.

Weight: 390 gram (13.8 oz) Colour: Green

Code: CT433

2. Fox® Jungle Hammock:

A generously sized, parachute grade, ripstop-nylon hammock. Extremely hard wearing and comfortable it provides protection against the elements and biting insects.

Weight: 620 gram (22 oz) Colour: Green

Code: CT430

The complete Fox® System comprises of the three items shown above namely the Hammock, Mosquito net and cover sheet.

3. Fox® Lightweight Waterproof cover (basha):

A lightweight robust shelter sheet forming the third element of the fox sleeping system. Features a fully tape-seamed hem and reinforced, "anti-gutter" suspension points.

- Compact and lightweight
- PU coated Ripstop Nylon
- Woodland camo print
- 16 x suspension points
- NATO approved
- 2 mosquito suspension points
- Weight: 700 g (24.6 oz)

Code: CT047 DPM

CT047G Green

Complete Fox System 3 in 1:

The complete system includes hammock, mosquito net & cover (basha)

- Total weight: 1810 gram (64 oz)

Code: CT434

Mountain Gore-Tex® Bivi Bag:

This bivy has a minimal stuff size and weight. It is mostly used for mountaineering or as part of survival packages. It can also be used for every soldier who wants to be protected from the elements.

The outer shell is made of laminate, which is waterproof, wind-proof, and vapour permeable.

- Weight 680g
- Packing size: 32cm x 8cm

Code: CT989

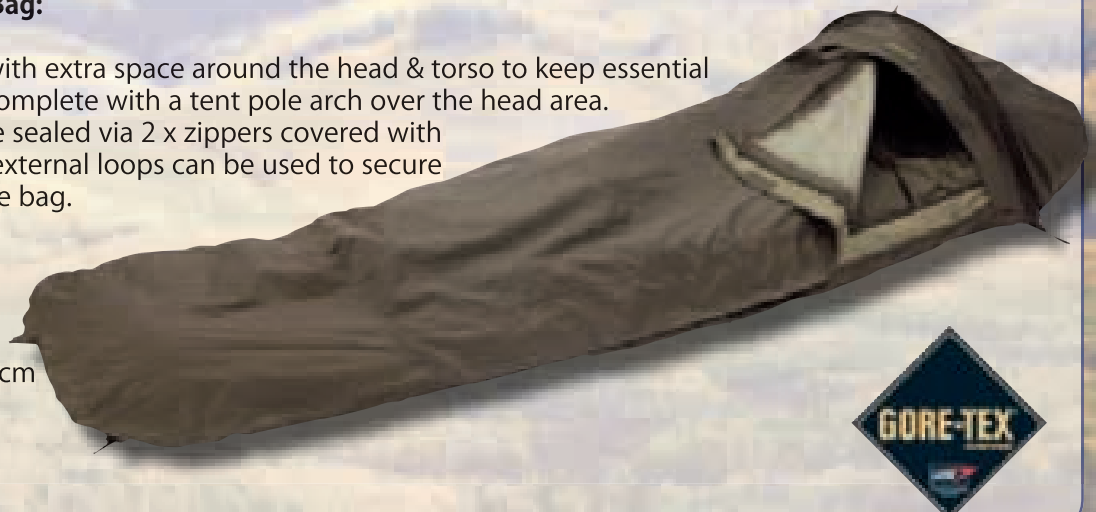

Explorer Two Gore-Tex® Bivi Bag:

A generously sized bivi bag with extra space around the head & torso to keep essential equipment at hand. Comes complete with a tent pole arch over the head area. The L-shaped opening can be sealed via 2 x zippers covered with waterproof storm flaps. Five external loops can be used to secure an insulating mat beneath the bag.

- Integral mosquito net
- Tent pole arch
- Colour: olive green
- Pack size: 35 x 10cm
- Actual size: 104 x 250 x 76 cm (41 x 98.4 x 30 inches)
- Weight: 1.2 kg (2.6 lbs)

Code: CT004

Collapsible Camp Bed:

Constructed from a **lightweight aluminium frame** and robust polyester canvas. Folds into a compact carry bag.

- Strong & Robust
- Quick & easy to assemble
- Packed size: 100 x 17 x 20 cm (39 x 7 x 8 inch)
- Weight: 8.4 kg (18.6 lb)

Code: CTO09

UN Sleeping Bag

This is dark blue sleeping bag designed and approved for use by the UN staff. It comes with outer and inner water resistant nylon shell. Filled with cotton and poly-loft insulation. The outer material fire resistant. The full length zip means the sleeping bag can be opened up and **used as a blanket**. Machine washable.

Folded with velcro straps which are attached to keep it folded. Supplied with a nylon carry bag with a sling strap

Dimensions: 190.5 cm x 83.8 cm
Weight: 1.5 Kilograms
Rated to 32° to 48°F. (0° to 7°C)
Approx packed Size:
30cm (12 inches) Long
21cm (8 inches) Diameter

Code: CT027

Modular Camping Sleeping System (MCSS):

**A complete 3-in-1 integrated system
Consisting of two sleeping bags and one liner which may
be combined or used independently.**

Complete adaptability to your environment. The hygienic liner ties inside either bag. For its performance; this MCSS system is the most compact and lightweight synthetic sleeping system available today.

Each MCSS comprises of:

- Outer Sleeping Bag
- Inner sleeping bag
- Polycotton liner
- Large compression sack (for the complete system)
- Smaller compression sack (for one bag only)
- Can be used with any of our Bivi bags, which improves the comfortable operating temperature by a further -8°C (-17.6°F)

- * Excluding stuff sac and liner
- ** Test report Hohenstein Institute NO. 02.4.465
- *** Standard size is for people up to 6 feet (183 cm) tall
Large is for people over 6 feet (183 cm) tall

As a comparison the British Military Arctic sleeping bag in the same test gave a comfort rating of -6° and an extreme rating of -16°

Product	Temperature** Rating		Dimensions Open (cm)			Size Packed (cm)		Volume Compressed	Weight Kilos*	Standard Code	Large** Code
	Extreme	Comfort	Length	Toe	Shoulder	Length	Dia.	Cubic Litre			
MCSS Outer Bag	-34°C	-15°C	227	44	85	22	29	13	1.9	CT993	CT994
MCSS Inner Bag	0°C	8°C	227	41	83	22	17	5	1.1	CT995	CT996
Combined MCSS	-55°C	-40°C	227	44	85	28	30	18	3.0	CT997	CT998

Features of both MCSS bags system are;

- **G-LOFT AND THERMOFLECT:** The key to the MCSS outstanding performance. See details overleaf.
- **ZIP:** An easy break open 2 way zip in case you have to get out of it fast.
- **A TRAPEZOIDIAL FOOT SECTION:** Experience has shown that the trapezoidal cut provides the ultimate foot space. In a normal sleeping position, the feet do not poke the insulation outward so that cold spots are avoided.
- **IS MUMMY SHAPED:** The tapered foot section reduces weight, stuff size and there is less internal volume to keep warm.
- **HAS A DOUBLE-LAYER SANDWICH CONSTRUCTION WITH LOOSE SHELL:** Two G-LOFT insulation layers are arranged so that quilting is offset. The shell is attached afterwards, creating a further layer of air between the quilted insulation and shell. With no stitch perforations in the shell, it is relatively water and airtight.
- **MICRO FIBRE OUTER:** The polyamide outer shell is a super-light, strong, highly breathable, material which is so tightly woven it makes it extremely water resistant.

1. MCSS outer bag:

It has excellent **weight and volume to performance ratio**.
Proven to be 100 % reliable in cold nights both in the wilderness and in snow caves.
A protection flap on the outer side of the zipper keeps out wind and wet. There is a generous draft tube on the inside of the zipper to prevent heat loss at the zipper.

3. Polycotton liner:

A hard wearing poly cotton sleeping bag liner.
Can be attached inside either MCSS bags or used independently in hot climates.

50% Cotton / 50% Polyester

2. MCSS Inner Bag:

Light-weight sleeping bag with an **extremely small packing size** and minimal weight.
It's remarkable features is its vapour permeability which is very important for hot and humid tropical nights. The hood is equipped with a mosquito net which can be folded out of the flap if required. Extra long zip goes the complete length and across the foot of the inner bag. Hence in hot weather it can be unzipped and **folded out to form a duvet**.

What is G-Loft Insulation ?

The key to the MCSS fantastic thermal performance to bulk and weight ratio is the G-Loft insulation. G-Loft is a micro-filament fibre which has the following features which are unique when combined.

Molecular spiral crimp

The G-LOFT fibre is a bicomponent fibre (dual density) which is spun from 2 different sorts of raw esters. One half of the fibre has higher shrinking properties after the spinning process. In this way a 3 dimensional permanent spring like crimp is achieved. This increases the loft, improves the bags recovery after it has been compressed and gives the fibres maximum resilience to long term compression.

Premium Hollow Fibre

The fibre has a micrometer wide hollow running all the way through it. Since air is a bad conduction, the fibre has the same effect as a thermos flask, where the warmth is insulated by an air chamber.

Unique Cluster Formation

The G-LOFT fibres are distributed and bonded to each other totally at random. This makes the G-LOFT insulation resilient, springy and soft. The fibres clump within this insulation forming so-called clusters. In this way the air forms a pillow and increases the insulation capabilities, similar to a high quality down filling.

The finest fibres

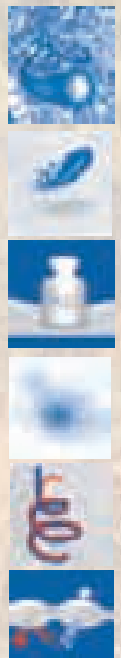

The weight of the individual fibres is much less, allowing more fibres per gram. The G-LOFT fibre is lighter than conventional fibres and keeps you warm and dry. Each filament is silicon coated creating a softer feel. Perfect Personal Climate control. Due to the unique structure of G-LOFT-climate-hollow-fibers humidity can escape. Warm air however is trapped. The G-LOFT-fibers themselves do not absorb moisture, providing the perfect personal climate control.

Maximum Compression

The G-LOFT-fiber offers a matchless compressibility. It guarantees an optimal heat capacity over pack size ratio due to it's light weight. The molecular level crimp structure ensures immediate optimal loft, even after longer periods of compression.

THERMOFLECT

Each MCSS bag contains a breathable aluminium scrim, Thermoflect, which reflects the bodies radiant heat. This improves the insulation of the bags for very little extra weight or bulk. It increases the heat retention of a sleeping bag around 11 %. Thermoflect is an ultra-light, ultra-soft, breathable scrim with the unique ability to reflect body-heat.

**Wildlife™ Insect Repellents:**

These **British made** repellents provide protection against mosquitoes, gnats, midges, sand flies, horse flies, ticks, tsetse fly and most other biting insects.

Contains **DEET**. Long lasting (up to 10 hours, depending upon prevailing conditions) they are some of the most effective insect repellents available today.

The strength of the repellent should be matched to its use.

High strength 100% should be used when travelling in tropical and sub tropical regions, especially Africa and S.E. Asia; but should not be used on children.

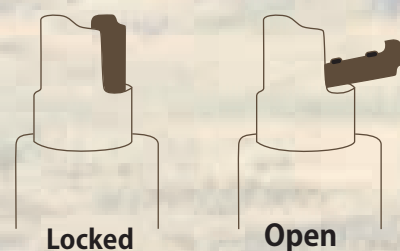

Mild strength 35% to 40% DPM are ideal for urban travel in Europe, N. America and for use by children

All the repellents are sold in an attractive display box of 24 units.

Name	Type	Formula	Size	Code
Tropical 100	Lockable Spray	100% DEET	75ml	CL123B
Urban 35	Lockable Spray	35% DEET	75ml	CL126B
Compact 40	Stick	40% DMP	25 gram	CL127B

The new lockable pump action spray prevents leakage.

"Defend" Natural Insect Repellent Patch:

- **DEET free**, all natural. Thiamine (vitamin B) is one of the key ingredients in the DEFEND insect repellent patch. Repels insects like mosquitos when applied topically to the skin.

- **Contains no pesticides**

- The patch lasts for **36 hours**

- 10 patches per pack

- **Safe for children**

Code: CL131

Hangover Cure

Has also found to be a great prevention of hangovers, if applied 2 hour prior to alcohol consumption. Its unique formula keeps you hydrated & slows up the build up of toxins & free radicals which contribute to these symptoms of a hangover.

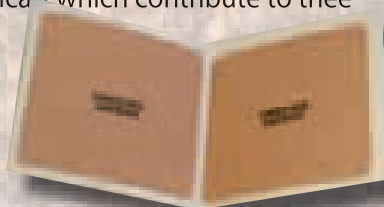

- Manufactured to FDA GMP standards

- Pack of 2 x 1 gram patches

- Patch size: 57 x 57 mm (2.3 x 2.3 in)

- 1 gram (0.04 oz) per patch

Code: CL132B

Mini mist insect repellent:

Tiny hand sized sprays.
Enough for a family for a day, or a few days trekking on your own

- Pocket sized,
- High visibility
- Approx. 50 sprays per applicator.
- Size: 3 ml (0.11 fl oz)
- **Contains 35% DEET**

Code: CL122

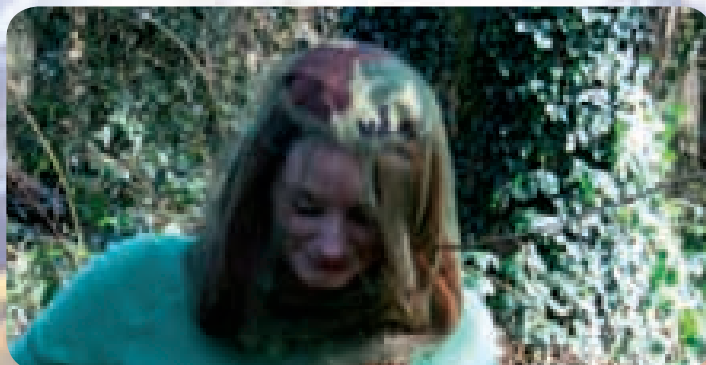

Mosquito Head Net:

A fine weave anti-mosquito head net with adjustable head cord. Small enough mesh to stop sand flies.

Olive green.

Code: CL2252A

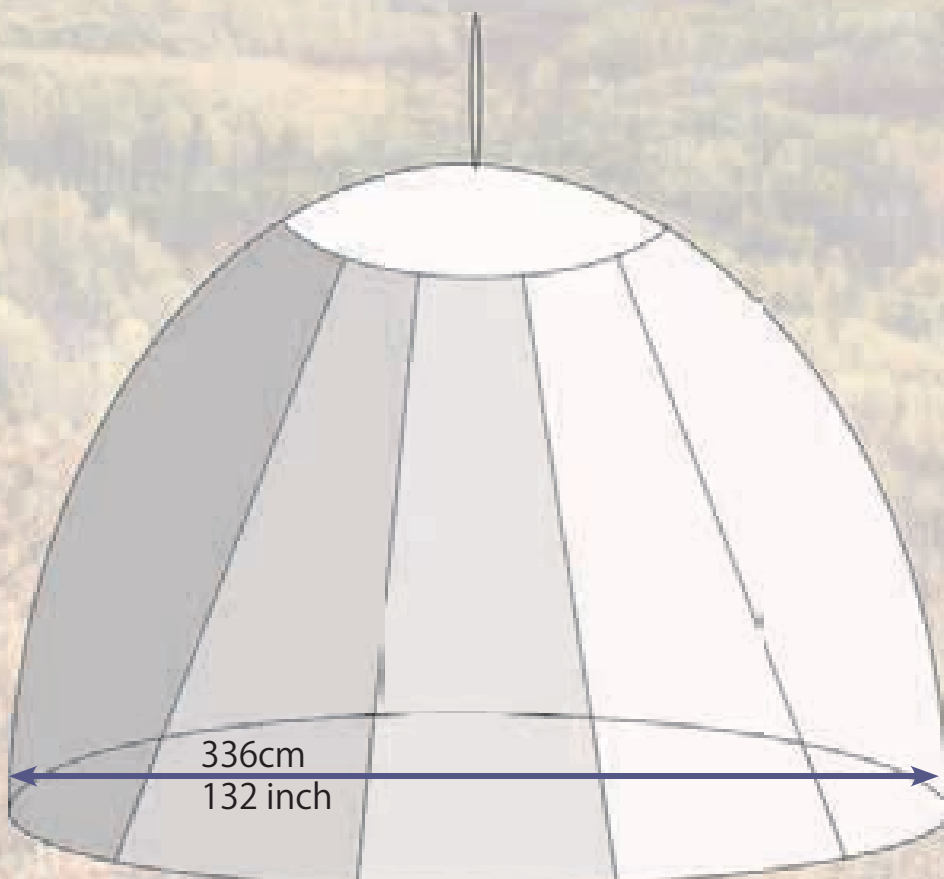

Wildlife™ Mosquito Nets:

BCB mosquito net used provide an effective night time protection. Made from lightweight 40 denier mesh and have a central suspension point. Provided with own stuff bag.

Tepee II (extra large bell net with skirt)

- Mesh: 150
- Height: 206 cm (81 inch)
- Width: 336 cm (132 in) diameter
- Weight: 422 gram (14.9oz)

Code: CL148 (Tepee II)

**Guardsman Handwarmer:**

The "Central heating system for your pocket."

Burning the charcoal fuel rods in this small metal case, coated in green velvet, produces 8 hours of consistent safe heat.

- Size: 11.5 x 7 x 2 cm (4.5 x 2.8 x 0.75 inch)
- Weight: 80 gram (2.8 oz)

Code: CL283 (Handwarmer with 12 fuel rods)
CL284 (Solid fuel refills x 12)

**Warm Packs:**

Opening the sealed packaging lets oxygen react with the bag. Within a minute they release constant heat. Typically these packs are used for comfort, increasingly however, they are used in rescue operations where a survivor is trapped in a cold or exposed place.

- | | |
|--|----------------------------------|
| Hand warmers (40 pairs per box) | Body warmers (40 per box) |
| • Working temp: 57°C to 70°C | • Working temp: 50°C to 65°C |
| • Duration of max. heat: 7 hours | • Duration of max. heat 20 hours |

Code: CL281 (Handwarmers)
CL280 (Body Warmers)

**Repair Tape:**

This amazing, self infusing silicone tape, literally fuses to itself. The bond becomes permanent after approximately one minute. Stretching the tape activates the silicone and when bound to itself it has an incredible 700 psi tensile strength. Use it for binding and for semi permanent repairs and applications.

- Insulates
- Very strong- requires cutting to release.
- Can be applied when wet
- The seal created is air tight and watertight
- Can even be used as an emergency fan belt
- Dimensions: 2.5cm x 3 metre (1inch x 10 ft)

Code: CL1527

**Adhesive Tapes:**

Versatile, pocket-sized tapes. Ideal for running repairs.

- Protects and reinforces areas prone to wear.
- Available in fabric, vinyl, and gaffer tape varieties.
- 5 cm (1 inch) wide 10 metres=11 yards

CL1524	Fabric	Camo	5cm x 10 metres
CL1525	Vinyl	Camo	5cm x 20 metres
CL1526	Gaffa	Black	5cm x 5 metres

**Snap-seal Bags:**

Water tight protective bags.
Pack of 10 includes: 5 large, 5 small

- Large: 53 x 58 cm (21 x 15 in)
- Small: 38 x 25 cm (15 x 10 in)

Code: CL006 (Per pack of 10)

Bushcraft™ Camouflage Cream 60 gram

A convenient two-tone camo stick that creates pattern disrupting stripes quickly and effectively without the need for a mirror. The IR reflective formula also moisturises the skin. Offers a very high sun protection factor (SPF).

British Quality

- IR reflective
- Not affected by rain or sweat
- Non toxic
- Easily removed with mild soap or BCB wet wipes
- Available in colour utilising, woodland jungle, desert and arctic shades.
- **Sun protection factor 65**
- Stick weight: 60 g (2oz)
- **Box of 24 Sticks**

Code: CL1488 Brown/green
CL1488B Black/green

Chameleon® Camo Compact:

Our 3 - colour camo cream is "non-irritant," Infrared Reflective (IRR). Supplied in a strong ABS plastic case, with an acrylic mirror in the lid. Deep matt black, olive green and service brown. Tan and loam are also available to special order.

British Quality

- New longer lasting formula
- **Box of 30 compacts**
- Compact size: 8 x 7 x 1.5 cm
(3 x 3 x 0.6 in)
- Weight: 50 g (1.76 oz)
- Sun protection factor of 50+

Code: CL1482A (3 colour compact)
CL1482B (Box of 30)

Cleansing wipes (Camo Remover)

Hygienic cleansing towels for the convenient removal of dirt, grease and camouflage cream from the skin.

Ideal for cleansing hands and face prior to food preparation or cleansing. Great for cleansing tasks when water is in short supply.

- **25 towels**
- Dimensions: 14.5 x 8 x 3 cm (6 x 3 x 1 inch)
- Soft resealable pack

Code: CS610

Bushcraft™

Camouflage Cream 30 gram

A lightweight version of the stick above

- Stick weight: 30 gram (1oz)
- **Box of 24 sticks**
- **Sun protection factor 65.**

Code: CL1487 Brown/green

British Quality

**Neck Cooling Scarf:**

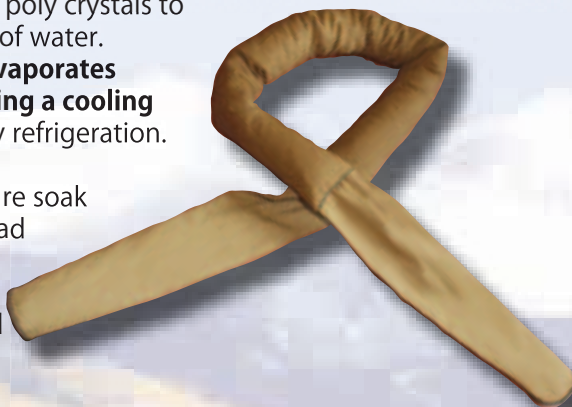

A simple but effective body cooling product that works by evaporation. Immersion in clear water for approximately 10 mins allows the poly crystals to absorb and retain a large volume of water.

When worn **the retained water evaporates and draws away body heat creating a cooling effect.** Cooling effect increased by refrigeration.

Great in hot conditions

- Heat relief for up to 3 days, then re soak
- Worn around the neck or forehead
- Infinitely reusable
- Non-toxic
- Doubles as a hot pack if required

Code: CL085S

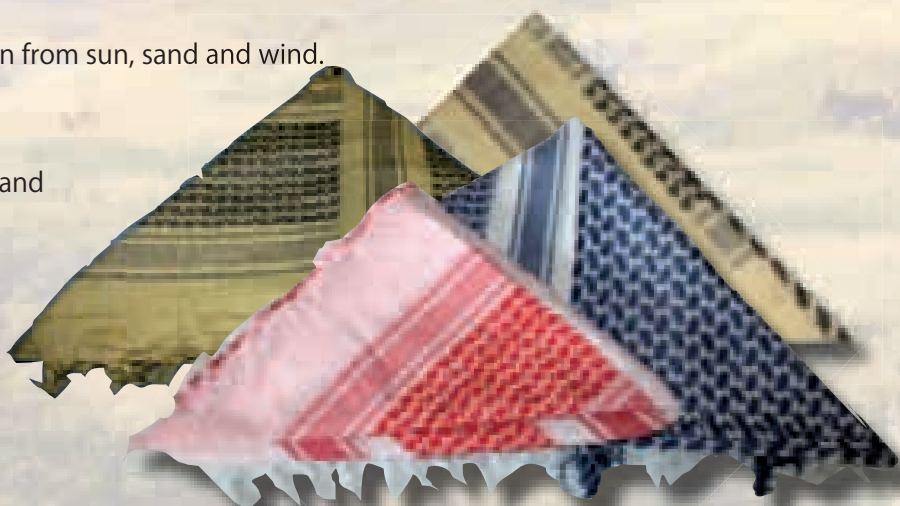

**Shemagh:**

Classic desert headwear. Provides protection from sun, sand and wind.

Also useful as winter head gear.

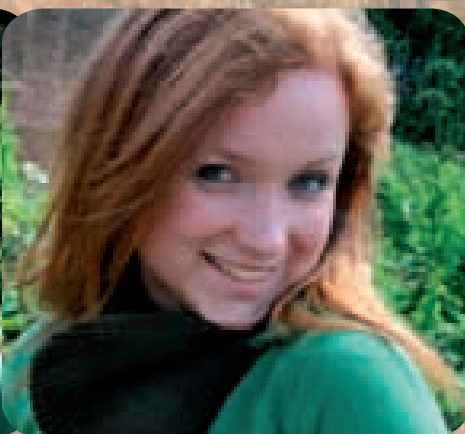

Doubles as a useful sweat mop, dust wiper and towel as required.

Code: CB224 (Olive/Black)
CB224B (Blue/white)
CB224BB (Beige/Black)
CB224R (Red/white)
CB224S (Sand)

**Thermal hat/ scarves:**

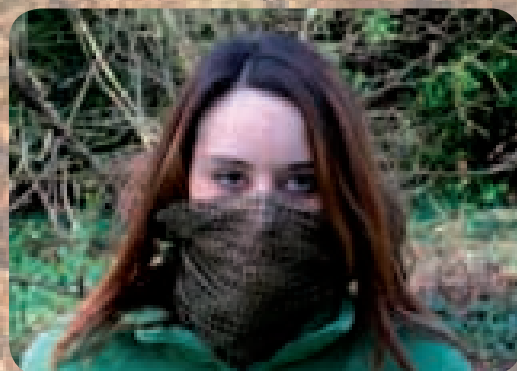

A heavy woven, double thickness hat/ scarf. Unrolls to form a scarf and double over itself to form a hat. Warm and snug

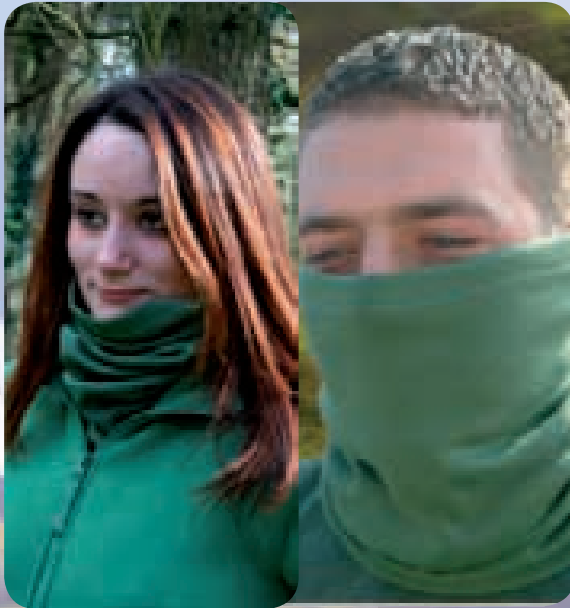

Code: CB472 (Green)

**Face veil/scrim scarf:**

A camouflage cotton net worn around the neck or over the face

Code: CB1505 (DPM)
CB1506 (Olive drab)

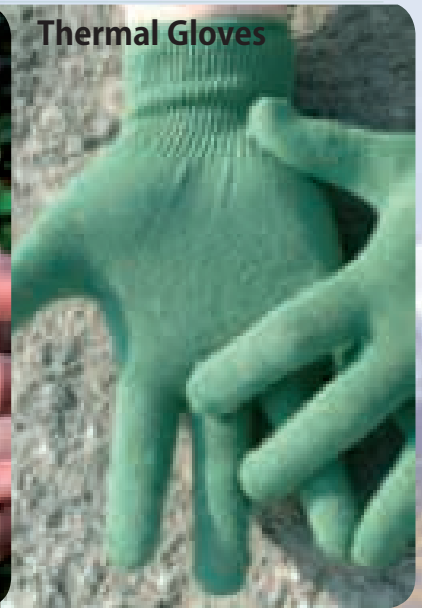

Thermal Wristovers

Thermal Gloves

Thermal Headover:

The headover can be worn as a neck warmer, as a neck and face cover, or as a head cover.

This adaptable scarf has a soft, brushed fabric which is comfortable against the skin.

- Meraklon
- Breathable fabric

Code: CB794G

Thermal Gloves & wrist Overs:

Worn on their own or under outer gloves.

The breathable fabric wicks away moisture, keeping your hands warm and dry.

- Olive green
- Meraklon
- Breathable fabric

Code: CB795G (Thermal Gloves)
CB797 (Thermal Wristovers)

Hot Weather Hat (With Cooling Chamber):

- Designed for hot climates.
- Mesh netting helps ventilate the head.

An integral poly-crystal chamber in the top of the hat can be immersed in water to provide extra cooling to the head.

Simple and very effective

- Simply immerse in water for 10-15 minutes
- Can be used with or without water.
- Mesh ventilation
- Removable nape guard and neck tie
- Colour: Sand

Code: CL087S

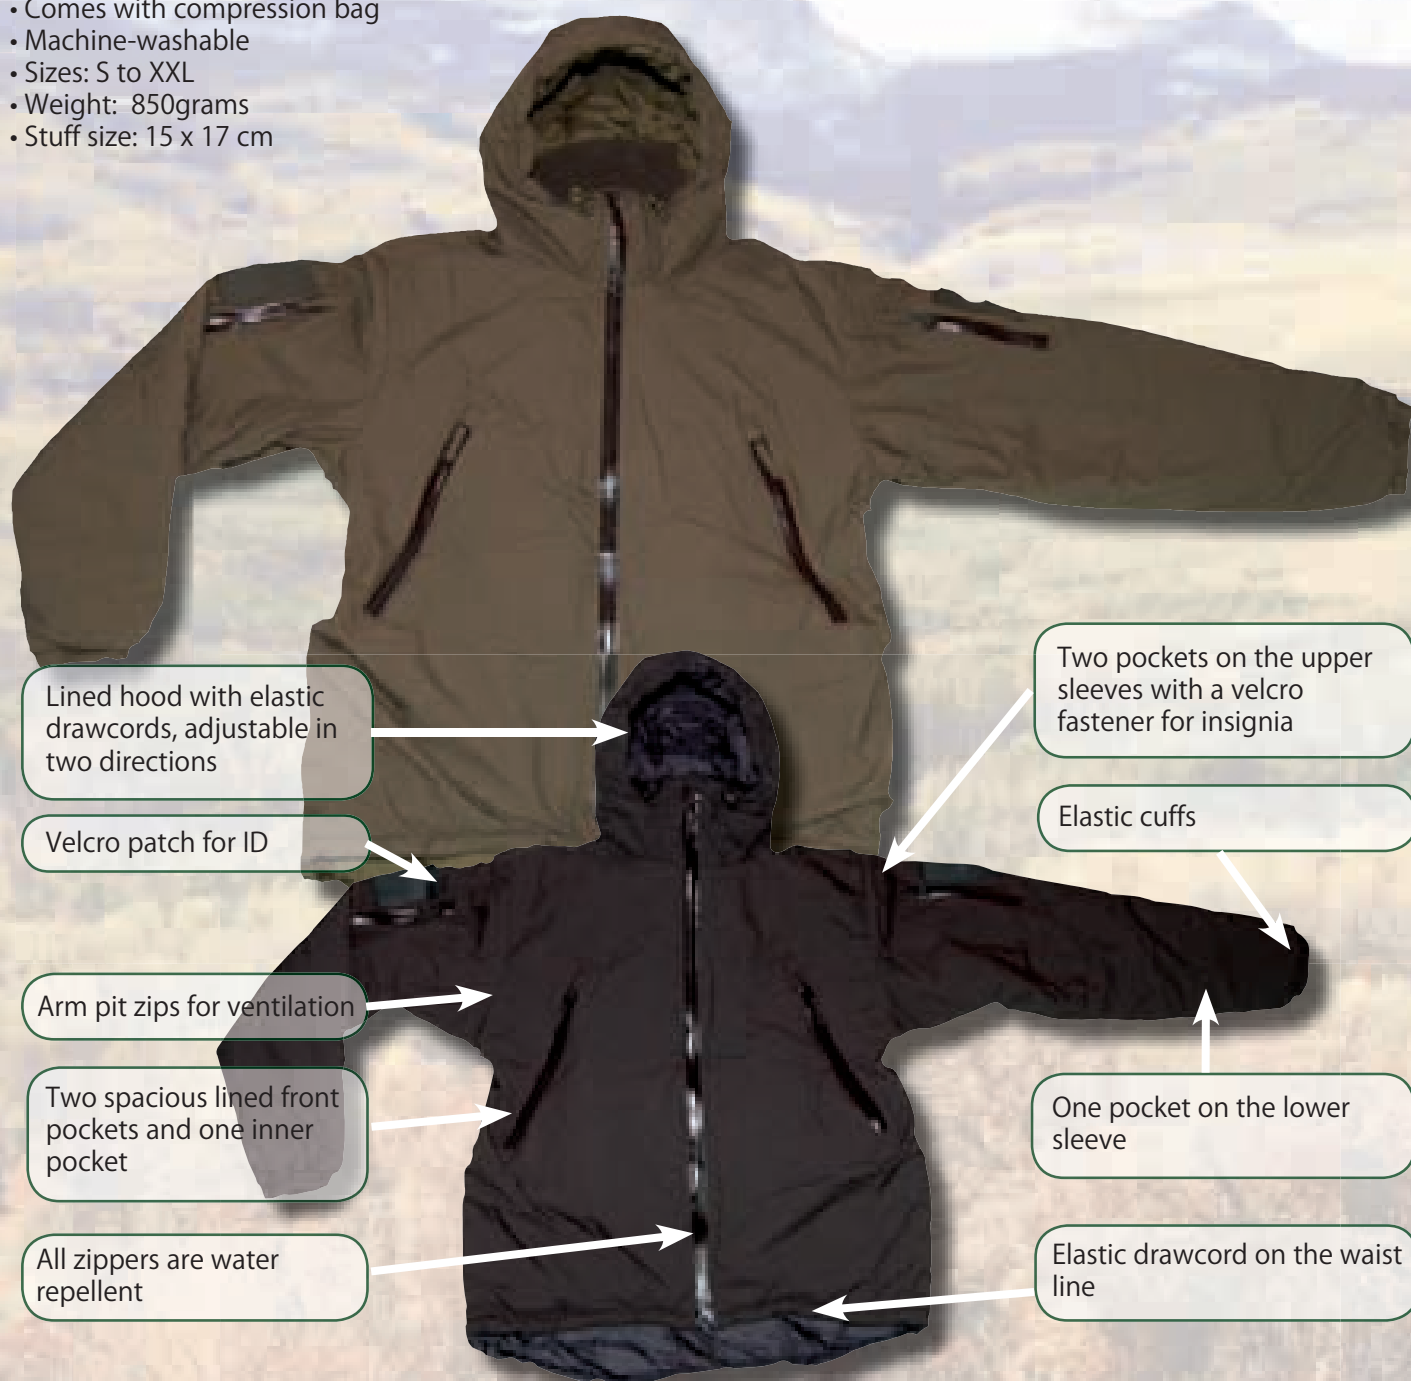

**MIG-Jacket:**

Outstanding performance with the best materials that are available on the market.

This system has been designed as a multifunctional jacket. It can easily be stored away and does not need much space. The efficient insulation layer and fabrics used provide optimum protection against wind and cold.

The Gore Tex **WINDSTOPPER-material** not only protects you from the wind. In combination with the G-Loft insulation material it keeps you warm and dry, as moisture can escape quickly. Even if the jacket is completely soaked it still retains up to 85% of its warmth performance.

- Comes with compression bag
- Machine-washable
- Sizes: S to XXL
- Weight: 850grams
- Stuff size: 15 x 17 cm

Lined hood with elastic drawcords, adjustable in two directions

Velcro patch for ID

Arm pit zips for ventilation

Two spacious lined front pockets and one inner pocket

All zippers are water repellent

Two pockets on the upper sleeves with a velcro fastener for insignia

Elastic cuffs

One pocket on the lower sleeve

Elastic drawcord on the waist line

Code: CB980 Olive
CB981 Black

G-Loft Reversible:

Provides maximum comfort in cold conditions. The jacket is made of 100% polyamid micro fibre fabric which is very closely woven, windproof but still highly breathable.

The G-Loft memory insulation technology, well known from our high quality sleeping bag range has all its fantastic qualities namely (see page 28 for details of G-loft):

- Extremely lightweight due to its thermal efficiency
- Soft and downy to the touch
- Retains full insulating power even when wet
- Does not absorb humidity
- Allows moisture to escape
- Machine washable
- Excellent ability to regain loft after several compressions
- Anti-allergenic, anti bacterial

All this and the **minimum weight and stuff size** makes this Thermal Wear second to none!

G-Loft Reversible	Jacket	Trousers
Sizes	S to XL	S to XL

Viper Drink

Drink Viper® before, during and after training and sport to help maximise your performance, endurance and recovery. Highly recommended during intense training and hot weather to replace lost fluids.

- * Helps you train harder for longer
- * Supports recovery from exercise
- * Electrolytes put back what exercise takes out
- * BCAAs to protect against muscle damage
- * Energy-rich carbohydrate blend

Code: MAX135 Mixed Berry
MAX136 Orange

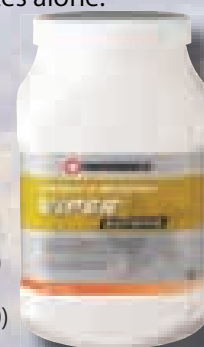

Viper

It will help prevent dehydration and sustains energy. After intense exercise, muscle glycogen is stored faster when taking Viper than other carbohydrate drinks containing carbohydrates and electrolytes alone. Increases speed

- Replaces the electrolytes and salts lost through sweating
- Inhibits muscle breakdown
- Retain focus and motivation
- Maintain skill
- Accelerates muscle refuelling

Code: MAX034 Fruit punch (Bulk 1kilo)
MAX034 Orange (Bulk 1kilo)
MAX039 Orange (350g Wallet x10)

Cyclone

Supplies your body with a unique combination of whey protein and vital nutrients needed by your body to support muscle growth, strength and recovery while training hard.

- 60g of protein per daily serving
- 10g of creatine and 10g of glutamine peptides
- 80mg of 97% Beta-Ecdysterone
- 3000mg of HMB™ (Enzymatic Metabolites of Leucine)
- Contains Nitrogain™ (a power blend of: Taurine, NAC, Chromium Polynicotinate and Orotic acid)
- Research proven, could increase lean muscle, size and strength
- High alkaline, pH booster creatine absorption system

Weight: 1.2kilos (2.6 lbs)
Code: Max 020 Strawberry
MAX021 Chocolate
MAX022 Banana
MAX023 Vanilla
MAX024 Orange

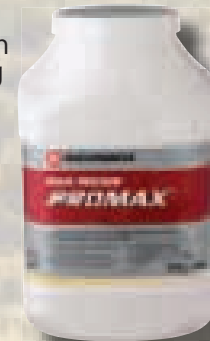

ProMax Protein Powder

Protein Powder, Vital for building Muscle.

- Advanced easy digesting Biomax whey protein
- 23g* protein per serving
- No egg, milk powder, soya or casein
- Muscle synthesis support formula
- Contains enzymes to help absorption
- 30 servings per tub Per 1 serving 30g (1 scoop)

Weight: 908g

Code: MAX001 Strawberry
MAX002 Chocolate
MAX003 Banana
MAX005 Orange

ViperExtreme Bar

Its exclusive and unique formulation provides a powerful mental and physical buzz in about 15-30 minutes of eating it.

Made from a delicious blend of fruit and grains blended for long lasting energy. L-Tyrosine, caffeine and guarana in each bar!

Why buy Viper Extreme bars?

- Feel more alert, focused and greater clarity within 15-30 mins.
- Great for all extreme endurance

Code: MAX033
Fruit & Nut

ProMax Meal Bar

Promax Meal bars will provide you with a superb 21g of protein per 60g bar. Most protein bars are much bigger, requiring you to consume far more calories to get the same amount of protein.

- 21g of whey protein per bar
- Less than 3g of saturated fat per bar
- 5.7g fibre
- Real dark Belgian chocolate coating
- high cocoa content
- Low sodium
- Only 206 calories per bar
- Low GI, Low carb

Code: MAX031
Chocolate & Orange
(box of 12)

41 Ultimate Survival Technologies

BlastMatch Fire Starter

The world's finest one-handed fire starter is compact, lightweight, and operates in all conditions.

Designed for all-weather use, this revolutionary flint based fire starting system performs superbly in the most extreme environments.

BlastMatch™ was designed for Air Force fighter pilots at risk of being shot down in rugged terrain, or the mountain climber contending with challenging alpine weather. People like these need a fire starter that is operable with one hand in case of injury.

Code: CK900 Black
CK901 Orange

StrikeForce Fire Starter

The patented StrikeForce® is an exceptional all-weather flint based fire starting system. The system offers you an all-in-one compact, durable package, with a special alloy flint bar, hardened steel striker, and revolutionary WetFire™ tinder.

When you scrape the striker down the high performance flint material you generate a spark three times as hot as a standard match which will easily ignite any dry tinder material. Or, you can use the included WetFire™ tinder which burns at more than 1300 degrees.

Code: CK902 Black
CK903 Orange

Wetfire Tinder + Stove

WetFire™ Tinder, the perfect accompaniment to any fire starter, can help you get a blaze going even in a downpour. In fact, the cubes actually burn longer when wet! WetFire™ Tinder was born from the need for a universal lighting material that was safe, odorless, easy-to-carry, and unaffected by wind or water.

WetFire™ Stove is an ultralight, all-purpose stove that weighs less than half an ounce. One cube of WetFire™ tinder placed on the stove platform will boil a cup of water in 5 to 6 minutes!

Code: CK904 Tinder
CK912 Stove

Sparkie Fire Starter

Sparkie™, the newest fire starter from Ultimate Survival Technologies, features one-handed operation in a lightweight, compact design.

Weighing less than one ounce, Sparkie™ is approximately one-third the weight and less than half the volume of its big brother the BlastMatch™. It features a reconfigured striker tab enclosure and spark bar. The compact body has a rubberized grip wrap giving you maximum control and comfort during use.

Code: CK910 Sand
CK911 Orange

Deluxe Survival Kit

Whatever you do outside, these premier recreational, safety and survival tools can simplify your life every day.

Components:

- HardCache™ Case: Not only is the HardCache™ carrying case watertight, it is virtually indestructible.
- BlastMatch™ Fire Starter
- WetFire™ Tinder
- StarFlash® Signal Mirror
- JetScream™ Whistle
- SaberCut™ Saw

Code: CK906

BASE Survival Kit

This ultra-light kit contains what you need to start a fire and signal for help. At only 70 grams (2.4 ounces), everyone should carry this kit when they go outdoors!

Contents:

- Sparkie™ Fire Starter:
- WetFire™ Tinder (2 cube)
- StarFlash® Signal Mirror
- JetScream™ Whistle

Code: CK908 Orange
CK909 Sand

Suspension Multi-Plier

This is a classic workhorse with spring-loaded pliers, and patented Saf.T.Plus™ component locking system.

Key features:

- Spring-loaded pliers
- Open frame design

Tools include:

- Needle nose pliers, wire cutter, fine edge knife, serrated edge knife, saw, scissors, crosspoint screwdriver, small and medium flatblade screwdrivers, can opener, bottle opener and lanyard hole.
- Supplied with a robust nylon sheath
- Size: 10cm (4") when folded
- Size: 16.25cm (6.5 inches) when open
- Weight: 190g (6.7oz)

Code: CM0004

Shortcut

A incredibly strong mini-scissors accompanied by an array of functional, practical, stainless steel tools.

- Size 10 x 12 cm (4 x 0.8 inch)
- Weight 75 gram (2.5 oz)
- Closed 6.25 cm (2.5 inches)

Includes:

- Screwdrivers
- bottle opener
- file
- tweezers
- knife
- pliers

Code: CM0012

Legend

It's the tool with features to burn. Starting with patented replaceable tungsten carbide cutting inserts that easily have their way with wire and the like. Comfortable spring action.

- Open Size: 16.5 x 3.5 cm (6.5 x 1.4 inches)
- Closed Size: 10.75cm (4.3 inches)
- Weight: 355 gram
- Aluminium handles
- Nato approved

Code: CM0011

Crucial Tool

Packed with essentials features it's compact and lightweight.

Overall length: 13.75cm (5.5 inches)
Closed length: 9cm (3.6 inches)
Weight: 150grams (5 oz.)

Stainless steel - black

Includes:

- Bottle opener
- Wire cutters
- Pliers
- Flat head screwdriver
- Cross head screwdriver
- blade
- Lanyard Attachment

Code: CM0059

Exchange-A-Blade Saw

Whether you're using the coarse blade on wood or the fine blade on hardwoods or bones, Gerber Exchange-A-Blade saw is built to maximize every effort.

The blades are stainless steel and compact, lightweight design ensures there's room for one on every trip.

Overall Length: 35.5cm (14.21 inches)

Closed Length 20.2cm (8.11 inches)

Blade Length: 15.5cm (6.18 inches)

Weight 218 grams (7.8 oz.)

Code: CM067

Recon

- Single LED
- Single AA battery
- Rotating Bezel with 4 colour lenses
- Rotating switch on/off
- Lenses can include NVIS, UV & IR
- 8.4cm long (3.4 inches)
- Weight 74 Grams
- Ideal for low light use on operations
- 3 lumens output
- Water resistant

Switch easily between red, white, blue or green lights.

Distance at which someone holding the Recon can read the top line of an eye chart is approx 5 metres (15 feet)
Battery will last for 25 hours.

Code: CM0018

Hail

Durable and up to the toughest task. The Hail answers the call for a flashlight that does what you need, when you need it.

- Single LED
- 1 x AA
- Rear push switch
- 11.5cm long (4.5 inches)
- Weight 50g (1.8 oz)
- Aluminium body
- Bright 10 Lumens output
- Duration: 5.5 hours

Code: CM0058

Omnivore

The Omnivore flashlight with patent-pending multi-battery functionality. Just pick your battery!

Choose from an AA, AAA or CR123 and drop it in for a beaming bright, white light.

A .7-watt L.E.D is protected by an aircraft-grade aluminum housing with lanyard hole.

- Bright 18 Lumens output
- Duration: 5 hours
- Single LED with Magnifying lens
- Can use one of either AA, AAA or CR123 battery
- Rear push switch
- Length 11.4cm (4.5 inches)
- Weight 113gm (4 oz.)

Code: CM0036

Sand Bagger - An Innovative Sandbag Filler

The wide mouth hopper combined with the unique twin bag slide system allows either:

- One person to fill 2 bags at once or
- Two people to fill sandbags continuously

Manual without a machine	92 sandbags filled per hour
Using the Sandbagger	480 sandbags filled per hour

Will work with all types of sandbags
Ideal for Flood Protection

Brains – not Brawn !

Technical Data:

Units	W x L x H (cm)	Weight (Kilos)
1 Open	69 x 51 x 93	25.5
1 Closed	69 x 51 x 55	25.5
8 Per Pallet	100 x 120 x 120	210

Code: CM999

The BCB Sandbagger collapses to aid transportation and storage and can be erected in seconds. All parts remain attached which eliminates the possibility of loss and the machine is completely maintenance free.

With the saving in labour cost the sandbagger will pay for itself in the first day of use.

Sandbags (and lots of them) are essential for protection against blast, bullets and floods. When you need them you want them quickly. The Sandbagger will help you produce all you need, right where you need them.

Robust The design loads structurally the strongest points. Single steel tubing.

Quality: steel structure used throughout. Feet can be pegged into the ground.

Compact: Folding legs reduces its size by half for transport, or storage. Eight per Euro pallet 120cm high. No detachable components to lose. Light enough for one person to carry.

Flexible: The feet allow it to be used in a soft, dry sand. It can be used with dry earth or shale. It's strength and it's large hopper mean it can also be filled by a small mechanical digger. Easy bag attachment and smooth slide mechanism allow it to be operated with gloved hands.

British Quality Engineering
— at its best.

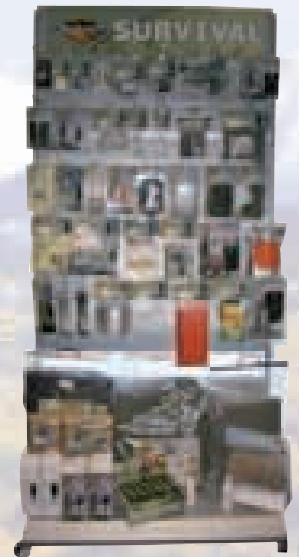

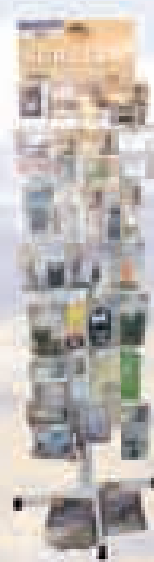

True to our Trade

As a prime manufacturer we constantly support our **trade and contract customers** through **competitive pricing, ISO maintained Quality Control and responsive, worldwide delivery services.**

Great Sales

All of our commercial products are **attractively packaged in environmentally friendly** materials, and come under the worldwide registered logo: **"Bushcraft"**.

90% of our packaging is recyclable...

Value for Money

BCB is a prime designer and manufacturer of the majority of the enclosed range. Therefore you are purchasing **quality**, affordable products **directly from the manufacturer.**

Innovation

CANEI stands for **"Constant and Never Ending Innovation"** and is one of our mantras at BCB. As such our Research and Development (R+D) Department are constantly bringing new innovative ideas into production. A large proportion of our Company's resources are committed to R+D.

As a design and innovator of outdoor products, our products have been copied worldwide. Though we protect our Intellectual property vigorously through the courts, the only real way to ensure you buy the quality original design is to buy it from BCB; the originator.

If you have any bright ideas for innovative products within our area of expertise, we may be happy to develop them with you.

Polar Conservation Organisation

The Polar Conservation Organisation (PCO) is a Brussels headquartered non-profit organisation with the goal of working towards the establishment, maintenance and monitoring of relevant international framework agreements for a sustainable future of both polar regions. www.polarconservation.org

Our mission statement is:

"Saving + Protecting lives in hostile environments through innovation"

Together we can make a difference!

In 1854 Dr Brown developed a cough medicine for the soldiers in the Crimean War. "Brown's Cough Bottle" proved of great comfort to the troops and was very popular and widely used for well over **100 years**.

The company when formed was named after it BCB – Brown's Cough Bottle.

Ever since we have been **manufacturing and designing innovative quality products** for troops and outdoor enthusiasts worldwide.

BCB's medical equipment was used on the first successful assault of the tough **South-West face of Everest in 1975**.

Over the last 50 years BCB has established & maintained a reputation as an innovator and dependable manufacturer for survival & outdoor gear & accessories.
